

NEW COAL CARS FOR RIO GRANDE

Four Big Utah Camps Will
Soon Be Able to Supply
All Necessary Fuel.

WORK FOR MORE MINERS

CARBON COUNTY PROSPECTS
BRIGHT.

(Special to The Herald.)

Price, Utah, Nov. 9.—The 500 coal cars ordered by the Denver & Rio Grande, and which are soon to be here with twenty new engines for service on the hills, will help out the coke and coal trade of Carbon county wonderfully and it will also give employment in the four coal camps of the Utah Fuel company in this county to an additional large number of miners. "The work at the various coal camps is improving a little," says General Superintendent Williams of the Utah Fuel company, "because of the additional new engines coming in for the railway service. While there is some delay on account of the scarcity of cars, yet the service is not quite as bad as it has been for the past several weeks."

"The prospects for being able to furnish all the coal necessary for commercial trade, as well as to the railway company, are very good. The unprecedented demand for coal is far beyond the expectations of anyone connected with the company, and has been the cause of stimulating everybody to strenuous efforts to satisfy this great demand. It is hoped, however, no trouble will arise to prevent the filling of all orders that may come in within the next ninety days."

Much Money Expended.

"A large amount of money has been expended in the way of improvements at Castle Gate, Sunnyside, Winter Quarters and Clear Creek in Utah and at Somerset in Colorado in the way of box car loaders, electric haulage motors, and the like, which will be found of great benefit in the handling of the large tonnage caused by the increased demand for fuel in this country."

"At Sunnyside, thirty new ovens have been added to the present operation, and 170 are under construction and nearly completed, and if no delay occurs on the part of the railway company in putting in the necessary track, the 170 ovens will be fired up by the first of January. This will make at Sunnyside 650 ovens. These, with the 704 in operation at Castle Gate, will be ample for the large trade of the smelters in Utah, Nevada, California and Montana."

New Cottages Being Built.

"Fifty new, comfortable and substantial cottages are nearing completion which add materially to the camp, and

will give comfortable shelter to a large number of people who are now put to great inconvenience by having to live in tents and temporary shacks. Extensive improvements are also being made at Sunnyside in the water system. Three-inch pipe is being replaced with six and eight-inch pipe, which will give better service and more ample security in case of fire in the town.

"It is expected to open several new mines within the next year. This is caused by the new smelters that are being built throughout this territory and the large increase in population. Everything at the mines is working along harmoniously and the best of feeling prevails between the employees and the company. No expense is spared on the company's part to make things comfortable and satisfactory for all its employees."

Output of Coal.

"The output from the four Utah camps will average about 6,000 tons a day. The prospect for being able to maintain this output is very good, as the best trade will soon be over and the cars now delegated to that service will be returned to take care of the coal business. This will be a great help toward maintaining the present output, and will, no doubt, relieve the present condition of slow times on account of shortage of cars."

PRISON FOR THE OFFENDERS

Federal Grand Jury at St. Louis
Seeks Evidence Against Persons
as Well as Corporations.

St. Louis, Mo., Nov. 9.—The federal grand jury, which meets next Wednesday, will investigate the St. Louis end of the alleged oil combine with a view to the institution of criminal proceedings against persons involved. It was made known today. Information was given out that members of the interstate commerce commission and representatives of the office of Commissioner of Corporations Garfield have been served with subpoenas deus tecum from the district court officials in St. Louis compelling their presence when the grand jury convenes.

The grand jury will proceed under the statute which sets forth that persons who accept and those who grant a special railroad rate not granted equally to all shippers are criminally guilty and subject to fine and imprisonment.

The subpoenas deus tecum issued compel the presentation before the grand jury of the transcript of the voluminous evidence secured by the investigation conducted in St. Louis and Kansas city.

BURNHAM TRIAL WILL BEGIN NEXT MONDAY

New York, Nov. 9.—Frederick A. Burnham, president of the Mutual Reserve Life Insurance company, and George Burnham and George D. Elledge, vice presidents of the same company, will be put on trial in the supreme court next Monday on a charge of forgery and grand larceny. The day was fixed today by Justice Greenbaum on application of District Attorney Jerome. The motion was not opposed by the defendant counsel. The indictment of the defendants followed disclosures at the recent insurance investigations.

INSANE GREED FOR HER MONEY

Cause Assigned for the Killing
of Frau Molitor by Hau,
Her Son-in-Law.

MURDER WAS DELIBERATE

AMERICAN FRIENDS BELIEVE
HIM INNOCENT.

Baden-Baden, Germany, Nov. 9.—Karl Hau, alias Staus, the lawyer of Washington, D. C., who was arrested in London yesterday and held for extradition, is wanted by the local police on the charge of murdering his wife's mother, Frau Molitor. The motive of the alleged crime appears to have been insane greed of money. Frau Molitor, who was wealthy, refused many times to comply with Hau's requests for money, having given her daughter a considerable dowry and arranged that she should inherit part of her fortune.

When Hau married Lena Molitor six years ago she was 25 years old, and Hau, a student, was 19. Their engagement seemingly was against Frau Molitor's wishes.

False Message Sent.

Immediately after their marriage the couple went to America and Hau attained a good position in Washington as a lawyer. Hau, his wife, and their daughter, 3 years old, came to Germany last summer to visit Frau Molitor. Mrs. Hau and the child stayed several months at the villa Molitor. Hau arrived there later via Constantinople. Visitors to the villa observed that the best relationship existed between the husband and Frau Molitor. Four months ago Hau left Baden-Baden to return to America, and his relatives thought he was either on board ship or had already arrived in the United States. Hau, it is now claimed, immediately left Baden-Baden, sent his mother-in-law a false telegram dated Paris, asking her to go and see her married daughter there. The falsification was discovered and the inquiries of the postal authorities with the view of discovering the identity of the sender of the message were still going on when the murder was committed.

Shot From Behind.

During the evening of Nov. 3, Frau Molitor received a telephone message at her home in Baden-Baden asking her to go to the postoffice and get a parcel which had reached there for her. Frau Molitor, accompanied by her young daughter, started at once for the postoffice, and while passing through a quiet street she was shot from behind and fell dead with a bullet through her heart.

The man who committed the murder was described as being of medium height and considerably under 40 years.

He wore a beard, but it is stated that it was a false one. The police believe the murderer was the man who called up Frau Molitor on the telephone.

The telephone message which induced Frau Molitor to go to her death was received by a servant of the household, who says she thought she recognized Hau's voice and so informed her mistress, but the latter insisted on going to the postoffice.

Hau's Movements.

Hau, after leaving Baden-Baden, sent his wife and child to London and stopped at Frankfurt, where he attracted attention owing to the long beard he wore. This, however, is now asserted to have been purchased from a hairdresser at Frankfurt.

The day of the murder, Hau left Frankfurt at 11 o'clock in the morning on the Baden-Baden train and returned to Frankfurt at 10 o'clock the same evening. After his arrival there he sent the following telegram to his wife at the hotel:

"Arrive tomorrow night. Don't betray address."

This telegram gave the police a clue to the identity of the murderer, and they promptly notified the London police. Hau's arrest followed.

It is asserted here that Frau Molitor had long been threatened and that she was aware that deep-laid plots had been made against her life, and it is believed that the summoning of Frau Molitor to Paris was part of a plot to murder her, which miscarried.

Believes Hau Innocent.

Washington, Nov. 9.—Dr. Charles W. Needham, president of George Washington university, in common with many other friends of Karl Hau, who is charged with murdering his mother-in-law in Germany, declines to believe Hau could be guilty of the crime. Dr. Needham says he has known Hau five or six years and esteems him as one of the most scholarly and upright men he has ever known.

MURDER AT PHILADELPHIA

Civil Engineer Shot Down by Fireman—Victim a Witness in Recent Sensational Trial.

Philadelphia, Pa., Nov. 9.—Frederick Shaffhauser, a civil engineer in the bureau of water, was shot and probably fatally wounded today, by Frederick Hornberger, a fireman at a city pumping station. Shaffhauser for the last year has been much in the public eye, principally as a star witness in the proceedings against John W. Hill, formerly head of the bureau of filtration. Shaffhauser was called from his office in the city hall to the corridor of the seventh floor today on the pretense that a friend wished to see him. He was met by Hornberger, who shouted: "You have killed my wife and I am going to kill you."

He did not finish the sentence when he fired five shots at Shaffhauser, two bullets taking effect.

Hornberger, when arrested, told the police that Shaffhauser had been intimate with his wife and that her relations with him resulted in her death recently from disease.

ORDERED BACK TO PRISON

Indiana Wife Murderer Out on Parole Broke Up Home of Wabash County Man.

Indianapolis, Ind., Nov. 9.—W. E. Hinshaw, former minister, who was convicted in 1895 of wife murder, sentenced to prison for life and paroled in 1905, was tried before Governor Hanly today on the charge of having wrecked the home of Sheriff-elect George Freeman of Wabash county since he was released from prison.

George Freeman, husband of the woman with whom Hinshaw is charged with having been criminally intimate, was the complaining witness today. Hinshaw admitted having been in correspondence with Mrs. Freeman, having met by appointment and having cohabited with her over night to a hotel at Shirley, but denied any improper conduct.

Following the completion of Hinshaw's evidence after recess and the arguments of counsel, Governor Hanly ordered that Hinshaw be returned to the state prison at Michigan City to continue serving his sentence of imprisonment for life for the murder of his wife.

LUCKY ESCAPE FOR AN INNOCENT MAN

San Francisco, Nov. 9.—John Siemsen, alias Simpson, and Louis Dabner, his companion in a series of crimes, were formally charged with murder today. It is for the murder of M. Murakata, the Japanese banker, that both men will be arraigned in police court tomorrow.

The authorities took the first step today to secure the release of Dodwell, alias Sutton, who was sent to the penitentiary for fifty years for the holding of Dr. T. B. W. Leland, a crime to which Siemsen and Dabner have both confessed.

ADVANCE IN WAGES.

Standard Oil Company Boosts Pay of Refinery Employees.

Lima, O., Nov. 9.—A 5 and 10 per cent advance in the wages of all employees of the refining branch of the Standard Oil company was announced here today. The advance affects immediately 900 employees of the Solar refinery in this city, and the army of employees at Welker, Wood county, O.; in Oil City, Pa.; in Wagon, La.; in Rayonne, N. J.; Denver, and Charleston, S. C.

No notice of like advance has been received by the pipe line department, but rumor has it that the voluntary advance will extend to every branch of the company.

COUNSEL FOR COUNTLESS CONFIDENT OF VICTORY

Paris, Nov. 9.—Counsel for the Countess de Castellane, in her suit for divorce against her husband, Count Boni, are confident that the application of the count's attorneys for an examination of the witnesses in the case will be denied by the court when the matter comes up next Wednesday.

It is also regarded as measurably certain that the public prosecutor will not avail himself of the right which he possesses to be heard in the interests of the general public. Nevertheless, it is known that the creditors are using influence to prevent the granting of a divorce until after their case is disposed of.

WHY WOMEN SUFFER.

Women have so much to go through in life that it is a pity there is so much needless suffering from backache, headache, dizziness, languor and other common aches and ills of kidney complaint.

Doan's Kidney Pills have brought new life and strength to thousands of women afflicted in this way.

Women are prone to kidney trouble. They have so much indoor work to do, so much lifting, bending and stooping; they are bound by custom to tight, heavy clothing. They get little outdoor exercise, and any little cold may bring on a kidney weakness.

Don't worry if you feel tired and dragged out—if you have backache and bearing-down pain, headache, dizzy spells, faintness and lack ambition. Don't think it's a kidney weakness peculiar to the sex. Men suffer in the same way when they have kidney trouble.

Ask yourself this question: "Are my kidneys well?" The condition of the kidney secretions may give you an answer. If there is a brick-dust sediment, or a stringy settling in the urine; if passages are to frequent and copious, or scanty and painful, it is time to begin using Doan's Kidney Pills. Delay may run you into Bright's disease or diabetes.

Doan's Kidney Pills are a special

"Every Picture Tells A Story"

medicine for the kidneys, and do not affect the bowels or any other organs. There is not a particle of poison in them—just the pure roots and herbs that nature intended for curing the kidneys.

Doan's Kidney Pills cure every form of kidney trouble. Read the testimony of a woman of your own city, perhaps a neighbor:

SALT LAKE CITY TESTIMONY.

Mrs. Margaret Gorrie, 26 West Third South St., Salt Lake City, Utah says: "I believe that Doan's Kidney Pills were the means of saving my life. Before procuring them at the F. J. Hill Drug Co.'s store and taking them I suffered greatly from kidney complaint and its accompanying symptoms, although I had everything I could get relief. Diabetes finally set in, my limbs were swollen to twice their natural size and I was in awful misery. Through the advice of a friend I began using Doan's Kidney Pills and in them found a remedy which gave me prompt relief. The kidneys became normal and natural, the swelling of my limbs disappeared, and as I continued using the remedy every symptom of the aching and miserable feeling was banished. I can certainly vouch for the great value of Doan's Kidney Pills."
